## 17" Wells Gardner Monitor

Where is the Problem?

Some Problems come from the Power Supply

## Works Good Now

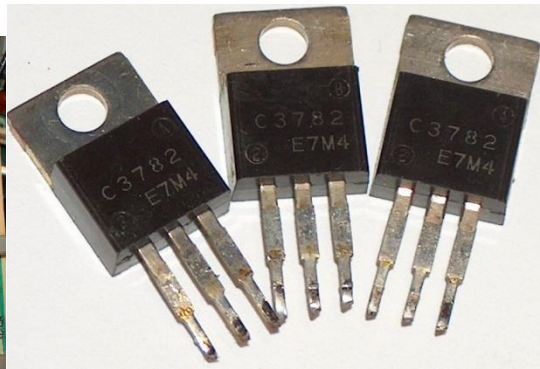

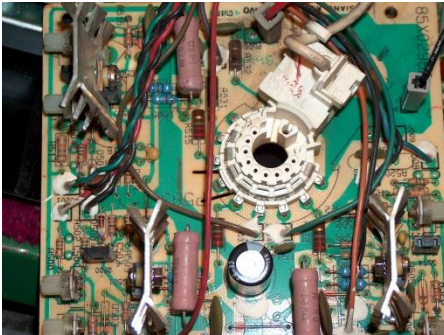

Where is the problem

*I found that the one with the Blue had a bad Q504  
With that replaced it turned Green  
Replaced Q503 that fixed the problem*

*The Red one had about the same problem,  
Bad Q501 & Q504 shorted*

*Now looks good*
