

# MY SLOT NOTES

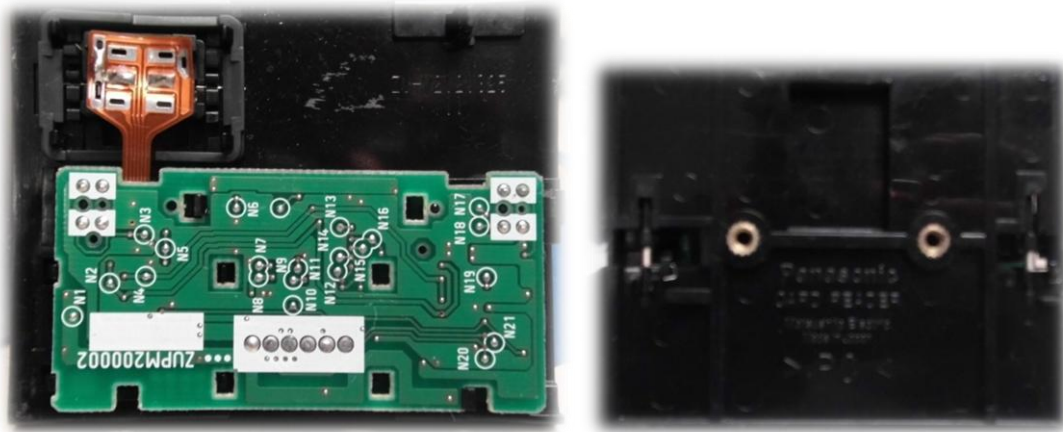

RESULT = Robert E Sult

For the best reSULT conSULT SULT

## *Acres gaming player tracking card reader*

1) Panasonic card reader ZU-M2121S25

This device seems to hold up very well. Biggest problem is unable to open for cleaning.

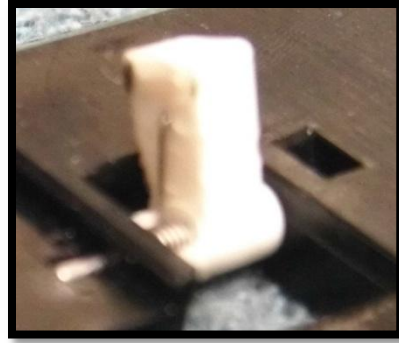

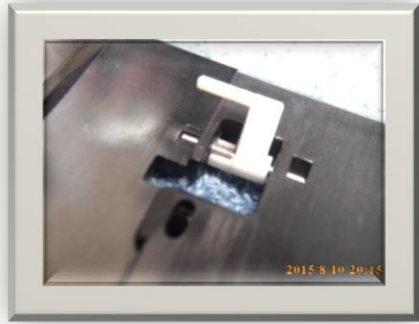

Panasonic card reader ZU-M2121S15

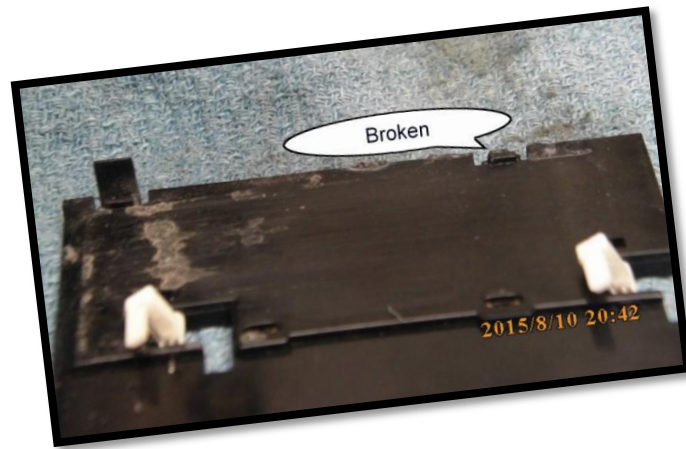

Also holds up very good, this model can be completely open for cleaning.

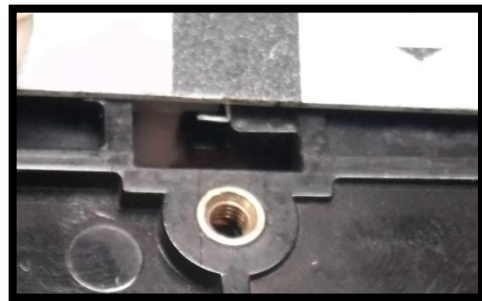

Problem – when the flags brake or you have a bad spring – there is no fix. They do not sale the flags or the spring.

Also you may find a few with a broken snap tab.

May find a weak spring –

MCR-373T-1R-2001 – NEURON CORP

This would be the best – Best design – and easy to clean – Also can buy the springs and flags.

Removing 5 Screws – to open and clean the card path.

Removing 3 screws makes it easy to clean – or replace the flags or the springs.
