

MY SLOT NOTES

RESULT = Robert E Sult
For the best reSULT conSULT SULT

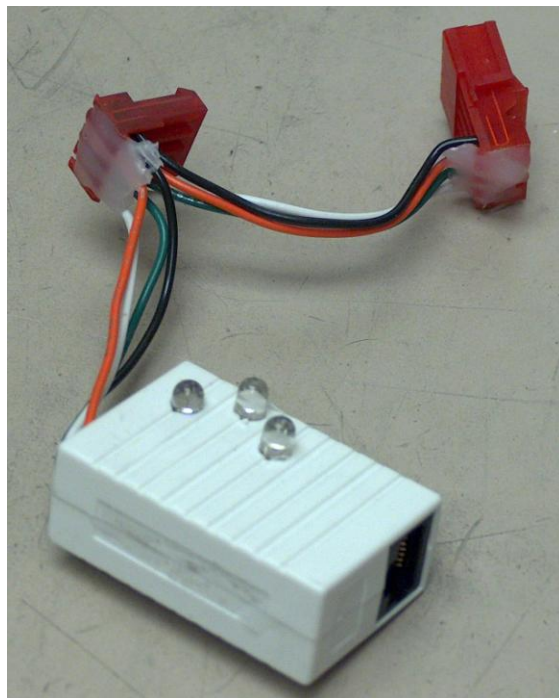

ACRES line tester

Connecting the tester to the Cat 5 coming up out of the floor – (Coming from the Bank Controller)

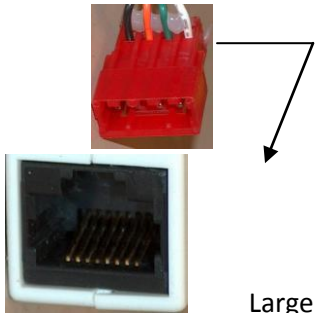

The White LED should light up (Power) – The Red LED should be blinking (Data)

If you also connect the other side of the tester to the Machine side

(Having the tester in series) you should also have the Green LED blanking (Data being sent from the game).

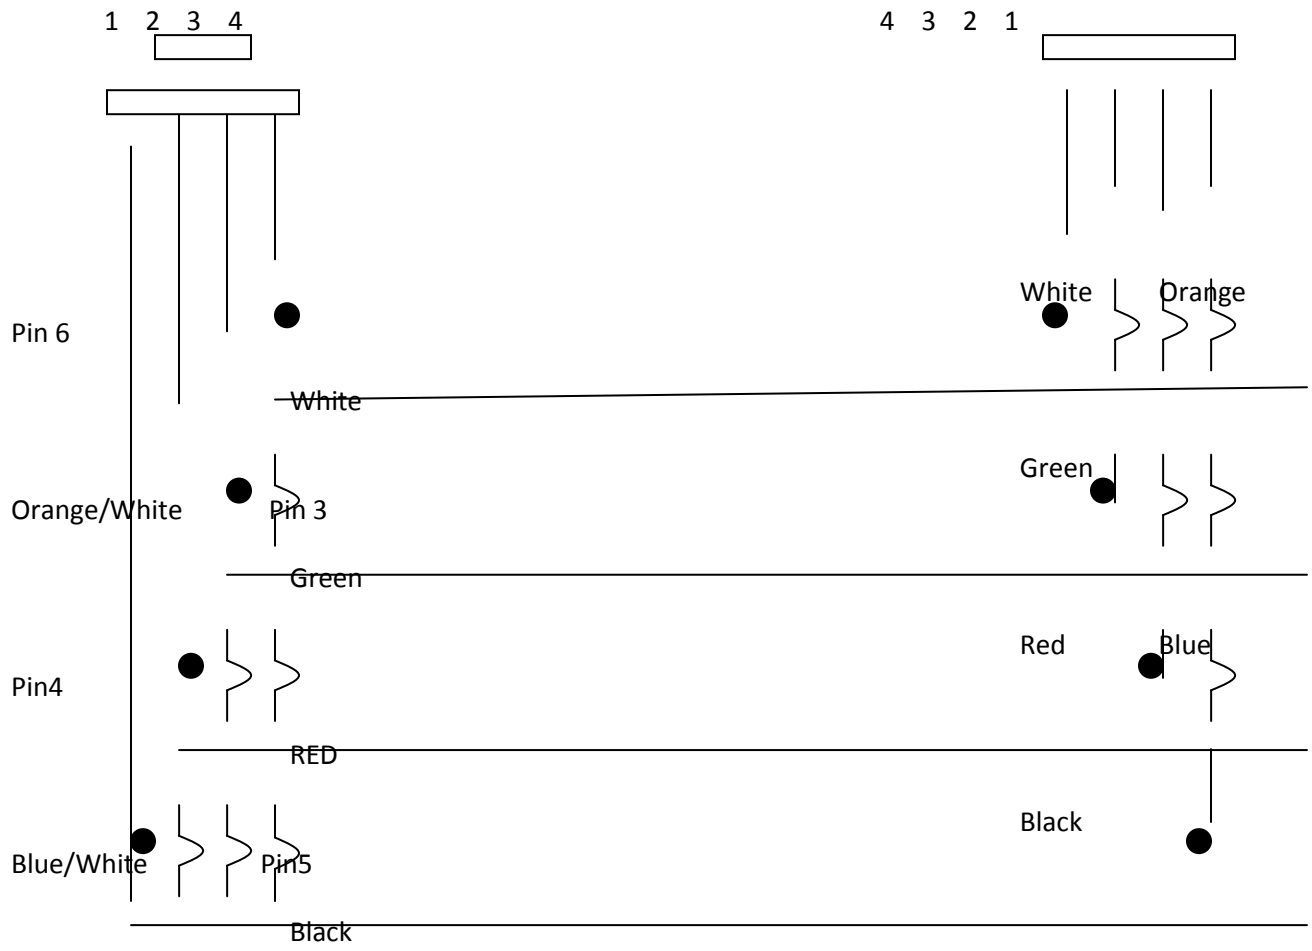

Plan RES-1
